USDC

Global Web3 Digital Currency

1. Financial Friction & Spreads

International tourists lose up to **15%** of their travel budget to banking spreads, foreign exchange fees, ATM surcharges, and credit card FX markups.

2. Severe Language Barrier

Direct negotiation with independent local guides, artisans, and family-owned businesses is impossible due to language barriers, locking out micro-vendors.

3. OTA Exploitation & Fragmentation

Online Travel Agencies (OTAs) extract **15%–30% predatortial commissions** from local vendors while forcing tourists to juggle multiple fragmented apps.

ALL-IN-ONE ECOSYSTEM

Social + Commerce + Web3 Fintech

A unified platform that connects travelers directly with authentic local providers with instant translation and frictionless digital dollars.

- ✓ **Direct P2P Marketplace:** Discover authentic local experiences, guides, and crafts directly from the creators.
- ✓ **AI Voice & Text Translation:** Real-time translation powered by OpenAI (GPT + Whisper) in 15+ global languages.
- ✓ **Borderless USDC Wallet:** Instant QR code payments backed by Binance Pay and USDC stablecoin with 0% P2P fees.

Fair Trade & Zero Fees

P2P QR transactions incur **0% commission fee**, leaving 100% of tour revenue in the local community hands.

Financial Inclusion

Micro-entrepreneurs earn and hold earnings in **USDC digital dollars**, protecting them against inflation and local currency devaluation.

Linguistic Empowerment

Breaking the language barrier lets non-English speaking artisans trade directly with foreign tourists, fostering economic dignity.

Core Technology Stack

- ✓ **Mobile Native:** React Native & Expo with modular architecture for iOS & Android.
- ✓ **Backend Engine:** Node.js, TypeScript, PostgreSQL, Redis, Docker containerized on DigitalOcean.
- ✓ **Real-time Voice & Media:** WebRTC proxy calls & WebSocket low-latency messaging.

Fintech & Currency Innovation

- ✓ **Binance Pay Gateway:** Instant fiat-to-crypto on-ramp and off-ramp rails.
- ✓ **Global Currency Index (G):** Weighted basket of 5 major currencies (USD, EUR, JPY, CNY, BRL) for price stabilization.
- ✓ **Instant Settlement:** QR Code instant transfer between wallets with full transaction security.

1. Vendor Ads & SaaS

Promoted marketplace listings and tiered merchant subscriptions (\$2 to \$5 USDC/month) for priority search placement.

2. Fiat-to-Crypto Margin

Revenue generated on fiat-to-USDC conversion (on-ramp) and progressive fees (1%-5%) on external bank cashouts.

3. Global Debit Card

Co-branded physical & virtual debit card issuing, earning interchange fees on traditional card terminal transactions.

Massive TAM & Blue Ocean

The global travel market exceeds **\$1.4 Trillion**. Atos2 attacks an untapped blue ocean at the intersection of experiential travel, Web3 payments, and AI translation.

Capturing unbanked and informal tourism suppliers worldwide.

Defensible Moats

- ✓ **Asset-Light & Zero Inventory:** 100% cloud software with near-zero marginal cost per new market.
- ✓ **Full-Funnel Retention:** Keeps the traveler inside one single app for discovery, negotiation, and payment.
- ✓ **Network Effect Flywheel:** 0% P2P fee attracts vendors organically, bringing tourists naturally.

Portugal as the European Gateway

Portugal is one of Europe's fastest-growing tourism hubs with high concentration of independent guides, local experiences, and international travelers.

- ✓ Full European multi-language support (pt-PT, en-GB, es-ES, fr-FR, de-DE).
- ✓ Native EUR inclusion in the Global Currency Index (20% weight).

Regulatory & Global Readiness

- ✓ **GDPR & LGPD Compliant:** Zero hardcoded secrets, strict privacy controls, and encrypted auth.
- ✓ **MiCA Ready:** USDC integration positions Atos2 for seamless EU crypto asset compliance.
- ✓ **Local Alliances:** Onboarding tourism boards, artisan guilds, and independent guide networks.

Execution & Leadership

Built by a battle-tested product development team led by **Cleber Mourão (CTO)**, specializing in fintech infrastructure, microservices, and mobile UX.

Status: Functional Alpha platform with P2P marketplace, OpenAI translation, WebRTC voice, and Binance USDC wallet live.
